Summer is coming! The weather is warming and people are starting to get back to their normal lives. It's time to get out and fly! We've had a lot of gusty winds lately and hopefully they a mostly behind us as the season of maiden flights approaches. I can't wait to see what everyone's been working on over the winter months. Maybe some of you will win an award at the Scale Fly-In Event on August 13th.

A special THANKS to member Jim Champion for all his recent weed abatement work! That's hard work and Jim has cleaned up the field so we can all have a runway free of weeds & those nasty goat head plants! Thanks Jim!

To repeat from last issue, THANKS again to member Marshal Davis & his company Cal Coast Roofing & Raingutters for fixing our roof! The recent winds have been brutal to our rolled roofing material. Thanks Marshall!!!

Mark your calendars! CCF is hosting another Scale Fly-In Event in 2022!!! The Scale Fly-In will be held on Saturday, August 13, 2022. Expect scale prizes for many categories and a great raffle like always. More details to follow. A second event, a Fly-In & Open House will also be announced shortly that will be held sometime in the month of June.

CCF BOARD MEETINGS ARE HELD AT DELEO FIELD on the 3rd Saturday of the month at 11am. The next meeting is on Saturday, May 21st. Stay well and see you at the field!

On final approach,

Ed Bialon, Editor

Circle City Flyers is a group of people who love RC flying.

Normal folks, who find the utmost joy in creating and flying wonderful machines that inspire awe and put just a bit of color in the sky.

CCF is a non-profit, AMA affiliated flying club.

The CCF has one of the best flying facilities in Southern California. We are located just south of Corona, California, just a few minutes from the 15 Freeway.

The club is well established and member's interests range from helicopters to 3D Planes. We fly gas, turbines, electric, glow, scale, profiles and combat wings. We have RC pilots who have flown for 40+ years, and beginners who are just learning the joys of flight. Got a question? Just learning? Curious? Come on down!

You can find folks flying most days, with the weekend mornings being very popular. Mornings are calm with winds generally increasing throughout the day.

Come to our field, and check us out! Visit our website at:
